MANAGEMENT RESPONSIBILITY FOR FINANCIAL REPORTING

To the Shareholders of Pro Metal Industries Ltd:

The accompanying financial statements of Pro Metal Industries Ltd. are the responsibility of management and have been approved by the Board of Directors.

Management is responsible for the preparation and presentation of the accompanying financial statements, including responsibility for significant accounting judgments and estimates in accordance with International Financial Reporting Standards. This responsibility includes selecting appropriate accounting principles and methods and making decisions affecting the measurement of transactions in which objective judgment is required.

In discharging its responsibilities for the integrity and fairness of the financial statements, management designs and maintains the necessary accounting systems and related internal controls to provide reasonable assurance that transactions are authorized, assets are safeguarded and financial records are properly maintained to provide reliable information for the preparation of financial statements.

The Board of Directors are responsible for overseeing management in the performance of its financial reporting responsibilities and for approving the financial statements. The Board of Directors fulfil these responsibilities by reviewing the financial information prepared by management and discussing relevant matters with management and external auditors.

Chalupiak & Associates CPA Professional Corporation, an independent firm of Chartered Professional Accountants, is appointed by the Board of Directors to audit the financial statements and report directly to the Members; their report follows. The external auditors have full and free access to, and meet periodically and separately with, both the Board of Directors and management to discuss their audit findings.

INDEPENDENT AUDITORS' REPORT

To the Shareholders of Pro Metal Industries Ltd.

Qualified Opinion

We have audited the financial statements of Pro Metal Industries Ltd., which comprise the statement of financial position as at October 31, 2020, and the statements of income and comprehensive income, changes in equity and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion, except for the effects of the matter described in the Basis for Qualified Opinion section of our report, the accompanying financial statements present fairly, in all material respects, the financial position of Pro Metal Industries Ltd. as at October 31, 2020 and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS).

Basis for Qualified Opinion

Due to deficiencies in the accounting system in the prior year, we were unable to confirm the accuracy and completeness of opening inventory. Any adjustments that might have been necessary would have a consequential significant effect on the Statement of Financial Position of the Company as at October 31, 2020, the Statement of Comprehensive Loss as at October 31, 2020, the Statement of Cash Flows as at October 31, 2020 and the related disclosures in the financial statements.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Material Uncertainty Related to Going Concern

We draw attention to note #2 in the financial statements, which indicates that the Company incurred a net loss of \$366,025 during the year ended October 31, 2020 and as of that date, the Company's current liabilities exceeded its current assets by \$595,328. As stated in note #2, these events or conditions, along with other matters as set forth in note #2, indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

INDEPENDENT AUDITORS' REPORT, continued

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

INDEPENDENT AUDITORS' REPORT, continued

We also:

- ♦ Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ♦ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- ♦ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ♦ Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- ♦ Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- ♦ Communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

1. Nature of operations

Pro Metal Industries Ltd. ("the Company") is incorporated provincially under the Business Corporations Act of Saskatchewan. The Company's principle business activity is metal design and fabrication. The Company operates out of one location at 261 Sherwood Road, Regina, SK. The Company is 100% owned by PFN Group of Companies Limited Partnership.

2. Going concern

These financial statements have been prepared on a going concern basis which contemplates the realization of assets and the payment of liabilities in the ordinary course of business. Should the Company be unable to continue as a going concern, it may be unable to realize the carrying value of its assets and to meet its liabilities as they become due.

In the current year, the Company reported a loss of \$366,025 (2019 - \$3,895,558) and the current liabilities exceeded the current assets by \$595,328.

The Company is significantly dependent on the contributions from the PFN Group of Companies LP, the parent company; as well as Pasqua First Nation for the cash contributions to meet its current liabilities.

Pro Metal will continue to rely on PFN Group of Companies LP and Pasqua First Nation cash contributions in order to meet its current obligations and continue its operations.

The accompanying financial statements do not include any adjustments relating to the recoverability of assets and to the reclassification of asset and liability amounts that might be necessary should the Company be unable to continue its operations.

3. Statement of compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) and interpretations adopted by the International Accounting Standards Board (IASB).

The financial statements were approved by the Board of Directors on behalf of the shareholders on Date to be determined.

4. Standards and Interpretations effective in the current period

Impact of application of IFRS 16 Leases

In the current year, the Company has applied IFRS 16 (as issued by IASB in January 2016) that is effective for annual periods that begin on or after January 1, 2019.

IFRS 16 introduces new or amended requirements with respect to lease accounting. It introduces significant changes to lessee accounting by removing the distinction between operating and finance lease and requiring the recognition of a right-of-use asset and a lease liability at commencement for all leases, except for short-term leases and leases of low value assets. In contrast to lessee accounting, the requirements for lessor accounting have remained largely unchanged.

There was no significant impact on the Company's financial statement on the initial application of the IFRS 16 Leases.

4. Standards and Interpretations effective in the current period, continued

Adoption of amendments to IFRS standards and interpretations:

In the current year, the Company has applied a number of amendments to IFRS Standards and Interpretations issued by the IASB that are effective for an annual period that begins on or after January 1, 2019. Their adoption has not had any material impact on the disclosures or on the amounts reported in these financial statements.

5. New and revised IFRS Standards in issue but not yet effective

At the date of authorization of these financial statements, the Partnership has not applied the following new and revised IFRS Standards that have been issued but are not yet effective.

IFRS 17	<i>Insurance Contracts</i>
IFRS 10 and IAS 28 (amendments)	<i>Sale or contribution of Assets between an investor and its Associate or Joint Venture</i>
Amendments to IAS 1 and IAS 8	<i>Classification of Liabilities as current or Non-current, Definition of material</i>
Amendments to IFRS 13	<i>Reference to the conceptual framework</i>
Amendments to IAS 16	<i>Property, Plant and Equipment – Proceeds before intended use</i>
Amendments to IAS 37	<i>Onerous contracts – Cost of fulfilling a Contract</i>
Annual improvements to IFRS Standards 2018-2020 cycle	<i>Amendments to IFRS 1 First-time adoption of International Financial Reporting Standards, IFRS 9 Financial Instruments, IFRS 16 Leases, and IAS 41 Agriculture</i>
Amendments to IFRS 3	<i>Definition of Business, Reference to the Conceptual Framework</i>
Amendments to IFRS 9, IAS 39 And IFRS 7	<i>Interest rate benchmark reform</i>
Amendments to IFRS 10 and IAS 28	<i>Sale or contribution of assets between an investor and its associate or joint venture.</i>

The directors do not expect that the adoption of the Standards listed above will have a material impact the financial statements of the Company in future periods.

6. Significant accounting policies

These financial statements are prepared in accordance with International Financial Reporting Standards (IFRS). The significant accounting policies are detailed as follows:

(a) Basis of presentation

These financial statements reflect only the assets, liabilities, revenue and expenses of the Company and therefore do not include any other assets, liabilities, revenues or expenses of the Shareholders or the liability of the Shareholders for income taxes on earnings of the Company.

Basis of measurement:

The financial statements have been prepared on the historical cost basis except for the following material items in the statement of financial position:

- Financial instruments at fair value through profit or loss are measured at fair value.

Functional and presentation currency:

These financial statements are presented in Canadian dollars, which is also the Company's functional currency.

Significant accounting judgements, estimates and assumptions:

The preparation of the Company's financial statements requires management to make judgments, estimates, and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the reporting date. However, uncertainties about these assumptions and estimates could result in outcomes that would require a material adjustment to the carrying amount of the asset or liability affected in the future.

Key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date are discussed below.

- Accounts receivable are stated after evaluation as to their collectability and an appropriate allowance for doubtful accounts is provided where considered necessary;
- Depreciation is based on the estimated useful lives of property, plant and equipment;
- Impairment of property, plant and equipment is based on the estimated recoverable amount of the assets; and,
- The estimated fair value of financial assets and liabilities, by their very nature, are subject to measurement uncertainty.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

6. Significant accounting policies, continued

(b) Financial instruments

Financial assets and financial liabilities are initially measured at fair value. Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities other than financial assets and financial liabilities at fair value through profit or loss ("FVTPL") are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognized immediately in profit or loss. Transactions to purchase or sell these items are recorded on the trade date. During the year, there has been no reclassification of financial instruments.

Financial assets at fair value through profit or loss

The Company has classified cash and cash equivalents as a financial asset at fair value through profit or loss. Any gain/loss arising as a result of the difference between the carrying amount and fair value is recognized in total comprehensive income.

Financial instruments at fair value through profit or loss are subsequently measured at their fair value.

Loans and receivables

The Company has classified accounts receivable and due from related parties as loans and receivables.

Loans and receivables are subsequently measured at their amortized cost. Amortized cost is the amount at which the financial asset is measured at initial recognition less principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount, plus or minus any reduction for impairment or uncollectability. Net gains and losses arising from changes in fair value are recognized in total comprehensive income upon de-recognition or impairment.

Financial liabilities measured at amortized cost

The Company has classified accounts payable and accruals, and due to related parties as financial liabilities measured at amortized cost.

Financial liabilities measured at amortized cost are measured at their amortized cost subsequent to initial recognition. Amortized cost is the amount at which the financial liability is measured at initial recognition less principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount. Net gains and losses arising from changes in fair value are recognized in total comprehensive income upon de-recognition or impairment.

6. Significant accounting policies, continued

(c) Financial asset impairment

The Company assesses impairment of all its financial assets, except those classified as fair value through profit and loss. Management considers whether there has been a breach in contract, such as a default or delinquency in interest or principal payments in determining whether objective evidence of impairment exists. Impairment is measured as the difference between the asset's carrying value and its fair value. Any impairment, which is not considered temporary, is included in current year earnings.

(d) Fair value measurements

The Company classifies fair value measurements recognized in the statement of financial position using a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

- ◆ Level 1: Quoted prices (unadjusted) are available in active markets for identical assets or liabilities;
- ◆ Level 2: Inputs other than quoted prices in active markets that are observable for the asset or liability, either directly or indirectly; and
- ◆ Level 3: Unobservable inputs in which there is little or no market data, which require the Company to develop its own assumptions.

Fair value measurements are classified in the fair value hierarchy based on the lowest level input that is significant to that fair value measurement. This assessment requires judgment, considering factors specific to an asset or a liability and may affect placement within the fair value hierarchy.

(e) Cash and cash equivalents

Cash and cash equivalents include cash and short-term investments with maturities of three months or less from their date of acquisition, which are readily convertible into a known amount of cash, and are subject to an insignificant risk to changes in their fair value.

(f) Income taxes

The Company has elected to account for income taxes using the deferred taxes method. In providing for corporate income taxes, temporary differences between the tax basis of assets or liabilities and their carrying amounts are reflected as deferred taxes. The tax rates anticipated to be in effect when these temporary differences reverse are used to calculate deferred taxes.

(g) Inventory

The Company's inventory of raw materials is recorded at the lower of cost and net realizable value. Work-in-progress and finished goods are valued at the lower of cost (including overhead) and net realizable value. Cost is determined by the first-in, first-out method. Cost of inventories of items that are segregated for specific projects is assigned by using specific identification of their individual costs. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and selling costs.

6. Significant accounting policies, continued

(h) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset or its development when those costs are necessarily incurred for the asset to function in the manner intended by management. When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items of property, plant and equipment.

All assets having limited useful lives are depreciated using the straight-line or declining balance method over their estimated useful lives. Assets are depreciated from the date of acquisition. Internally constructed assets are depreciated from the time an asset is capable of operating in the manner intended by management.

In the year of acquisition, depreciation is taken at one-half of the applicable rates.

The residual value, useful life and depreciation method applied to each class of assets are reassessed at each reporting date.

The methods of depreciation and depreciation rates applicable for each class of asset are as follows:

Buildings	10% Declining balance
Equipment	20-30% Declining balance
Vehicles	30% Declining balance
Computer equipment	30% Declining balance
Furniture and fixtures	15% Declining balance
Leasehold improvements	10 years Straight-line
Computer software	5 years Straight-line

Depreciation of leasehold improvements is recorded over the remaining term of the lease plus the first renewal option.

6. Significant accounting policies, continued

(i) Impairment of non-financial assets

At the end of each reporting period, the Company reviews the carrying amounts of its property, plant and equipment to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit ("CGU") to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual CGUs, or otherwise they are allocated to the smallest group of CGUs for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset or CGU is estimated to be less than its carrying amount, the carrying amount of the asset or CGU is reduced to its recoverable amount. An impairment loss is recognized immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset or CGU is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset or CGU in prior years. A reversal of an impairment loss is recognized immediately in profit or loss.

(j) Goodwill

Goodwill, arising on the acquisition of a business, represents the excess of the cost of acquisition over the Company's interest in the net fair value of the identifiable assets and liabilities of the business recognized at the date of acquisition. Goodwill is initially recognized at cost and is subsequently measured at cost less any impairment losses. Goodwill is tested for impairment annually or more frequently, if the events and circumstances indicate that there may be impairment.

(k) Comprehensive income

Comprehensive income includes all changes in equity of the Company, except those resulting from investments by shareholders and distributions to shareholders. Comprehensive income is the total of net earnings and other comprehensive income. Other comprehensive income comprises revenues, expenses, gains and losses that, in accordance with International Financing Reporting Standards, require recognition, but are excluded from net earnings. All gains and losses, including those arising from measurement of all financial instruments have been recognized in total comprehensive income for the period.

6. Significant accounting policies, continued

(l) Measurement uncertainty

The preparation of financial statements in conformity with International financial reporting standards requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reported period. Actual results could differ from those estimates.

(m) Revenue recognition

The Company does not recognize revenue before the amount of revenue can be measured reliably, it is probable that the economic benefits associated with the transaction will flow to the Company, the stage of completion of the transaction at the end of the reporting period can be measured reliably, the costs incurred for the transaction and the costs to complete the transaction can be measured reliably and collection of the related receivable is reasonably assured.

Metal fabrication revenues:

Revenue from the sale of fabricated products is recognized when the significant risks and rewards of ownership of the products has been transferred to the buyer.

PPE and mobile medical units revenues:

Revenues from the sale and installation services of Personal Protective Equipments and mobile medical units is recognized when the significant risks and rewards of ownership of the products has been transferred to the buyer.

Government grant

Government grant revenue is recognized on a systematic basis over the periods in which the Company recognizes expenses as related costs. Government grants are recognized when there is reasonable assurance that the Company will comply with the terms and conditions associated with the grants and that the grants will be received for which the funded expenses were incurred.

(n) Temporary wage subsidy for employers (TWSE)

Temporary wage subsidy is recognized when there is a reasonable assurance that the Company will comply with the terms and conditions associated with the temporary wage subsidy and the temporary wage subsidy will be received. The Company reported temporary wage subsidy on a gross basis as an other income.

(o) Government assistance - Canada Emergency Business Account (CEBA)

Government assistance from the Canada Emergency Business Account (CEBA) loans under COVID-19 response programs are recorded as a long-term liability until there is reasonable assurance that the forgivable portion of the assistance will not be repayable.

7. Financial instruments

Transactions in financial instruments may result in an entity assuming or transferring to another party one or more of the financial risks described below. The required disclosures provide information that assists users of financial statements in assessing the extent of risk related to financial instruments.

7. Financial instruments, continued

(a) Risk management policy

The Company does not have a formal risk management policy.

(b) Fair value

The fair value of current financial assets and current financial liabilities approximates their carrying value due to their short-term maturity dates. The fair value of long-term financial liabilities approximates their carrying value based on the presumption that the Company is a going concern and thus expects to fully repay the outstanding amounts.

(c) Foreign exchange risk

The Company is exposed to foreign exchange risk in United States dollars. Foreign exchange risk is the risk that the exchange rate that was in effect on the date that an obligation in a foreign currency was made to the Company by a customer, or that an obligation in a foreign currency was made to the Company to a supplier, is different at the time of settlement than it was at time that the obligation was determined. The Company reduces its exposure to foreign exchange risk by monitoring exchange rates on obligations that are made to the Company and engaging in hedges when there is a significant risk of exchange rate movement. The Company did not have any hedges at the time that the financial statements were issued. The Company does not utilize financial instruments to manage its foreign exchange risk. The Company maintains adequate foreign currency balances in its bank provided by its customers that discharged their obligations to the Company in the related currency, to discharge its related foreign currency obligations. In the opinion of management the foreign exchange risk exposure to the Company is low and is not material.

(d) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arise principally from the Company's receivable from customers.

The Company does have credit risk in accounts receivable \$853,002 (2018 - \$485,040).

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer.

The Company reduces its exposure to credit risk by performing credit valuations on a regular basis; granting credit upon a review of the credit history of the applicant and creating an allowance for bad debts when applicable. In monitoring customer credit risk, customer credit balance is grouped based on the following balance aging period.

	1-30	31-60	61-90	Over 90	Total
Accounts receivable	\$ 556,659	\$ 76,143	\$ 63,902	\$ 169,465	\$ 866,169

7. Financial instruments, continued

Expected credit loss assessment

The Company uses specific identification methods to measure expected credit losses of trade receivables. The Company measures expected credit losses based on the characteristics of customer, past payment history, the relationship the Company has with the customer and the length of relationship. The following table provides information about the exposure to the credit risk and expected credit losses for trade receivables from customers as at October 31, 2020.

	Weighted- average loss rate	Gross carrying amount	Loss allowance	Credit impaired
Current (not past due)	-	493,803	-	No
1-30 days past due	-	62,856	-	No
31-60 days past due	-	76,143	-	No
61-90 days past due	-	63,902	-	No
More than 90 days past due	21.5%	169,465	36,490	No
		\$ 866,169	\$ 36,490	

(e) Concentration risk

The Company does have concentration risk. Concentration risk is the risk that a customer has more than ten percent of the total accounts receivable balance and thus there is a higher risk to the business in the event of a default by one of these customers. Concentrations of one particular customer's account represents 54% of the total outstanding receivables at October 31, 2020 credit risk relates to groups of counterparties that have similar economic or industry characteristics that cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions. At October 31, 2020, receivable from one customer comprised approximately 54% of the total outstanding receivables. The Company reduces this risk by regularly assessing the credit risk associated with this account and closely monitoring any overdue balances. In the opinion of management the concentration risk exposure to the Company that is associated with their customers is low.

(f) Liquidity risk

The Company does have a liquidity risk in the bank indebtedness and accounts payable and accrued liabilities of \$1,768,303 (2019 - \$2,868,446). Liquidity risk is the risk that the Company cannot repay its obligations when they become due to its creditors. The Company reduces its exposure to liquidity risk by ensuring that it documents when authorized payments become due; maintains an adequate line of credit to repay trade creditors and repays long term debt interest and principal as they become due. In the opinion of management the liquidity risk exposure to the Company low and is not material.

7. Financial instruments, continued

(g) Interest rate risk

The Company is exposed to interest rate risk. Interest rate risk is the risk that the Company has interest rate exposure on its bank indebtedness, which are variable based on the bank's prime rates. This exposure may have an effect on its earnings in future periods. The Company reduces its exposure to interest rate risk by regularly monitoring published bank prime interest rates which have been relatively stable over the period presented. There are some loans payable that are at fixed term rates, or zero interest rates and do not affect interest rate risk. The Company does not use derivative instruments to reduce its exposure to interest rate risk. In the opinion of management the interest rate risk exposure to the Company low and is not material.

(h) Price risk

The Company is exposed to price risk. Price risk is the risk that the commodity prices that the Company charges are significantly influenced by its competitors and the commodity prices that the Company must charge to meet its competitors may not be sufficient to meet its expenses. The Company reduces its exposure to price risk by ensuring that it obtains information regarding the commodity prices that are set by the competitors in the region to ensure that its prices are appropriate. In addition, management closely monitors expenses and matches capital outlays to its revenue stream. In the opinion of management the price risk exposure to the Company is low and is not material.

(i) Other risk

There may be risks associated with the ongoing COVID-19 pandemic that can not be determined at this time.

8. Accounts receivable

	2020	2019
Trade receivables	\$ 866,168	\$ 485,040
Employee advances	1,930	-
GST receivable	280,011	29,019
PST receivable	3,511	907
Accrued receivables	23,643	-
	1,175,263	514,966
Less: Allowance for doubtful accounts	36,490	64,054
	\$ 1,138,773	\$ 450,912

Trade receivables are non-interest bearing and are generally on terms of 30 to 90 days.

9. Inventory

	2020	2019
Materials	\$ 230,497	\$ 327,404
Work in progress	68,515	68,625
Personal protective equip. and mobile medical units	336,629	-
	\$ 635,641	\$ 396,029

10. Prepaid expenses

	2020	2019
Rent Deposit	\$ 39,896	\$ 32,713
Insurance	34,195	30,253
Property Tax	-	4,730
Contracts	8,810	1,550
	\$ 82,901	\$ 69,246

11. Deposits

The Company was required to put a down payment of 50% on the order of twenty four Alaska Enerlayer medical shelters. The down payment was made on October 29, 2020 and the company subsequently received the tents in November, 2020.

	2020
Alaska Enerlayer medical shelters	\$ 203,285

12. Income taxes recoverable

In the prior year, the Company reassessed its probability to generate sufficient taxable income to utilize the carried forward non-capital losses generated from the 2018 fiscal year. Based on the assessment, there is a low probability that the Company will be able to generate sufficient taxable income to utilize the carried forward non-capital loss and therefore, recognized Income tax recoverable of \$577,816 from 2018 fiscal year became impaired and written down to \$193,695 in the prior year. The Company has future income taxes payable balance of \$222,725 resulting from the temporary differences. The Company will be able to use income taxes recoverable of \$222,725 against the future income taxes payable and the net impact on the Company will be nil. Given the low probability of earning taxable income, the Company did not set up current taxes recoverable.

	2020	2019
Opening Deferred taxes	\$ 193,695	\$ 577,816
Less: Impairment	-	(384,121)
Add: 2020 deferred tax liability	29,030	-
	\$ 222,725	\$ 193,695

13. Write down of Gasification unit deposit

In the 2018 fiscal year, Pro Metal Industries Ltd. had placed a deposit of \$484,210 towards the purchase of Gasification Equipment. In the prior year, management identified that the equipment would not be able to meet the stringent Canadian Standards Association code and would not be able to be imported to Canada.

Pro Metal Industries Ltd. management is currently negotiating with the vendor to recover this deposit. At the time that these statements were issued nothing had been settled.

Draft for discussion purposes only

PFN Group of Companies LP - 1,410 Class A common	\$ 1,666,680	\$ 1,666,680

22. Contributed surplus

The PFN Group of Companies Inc made equity contributions of \$2,864,965 when they purchased the Company in 2016.

	2020	2019
PFN Group of Companies LP	\$ 3,690,270	\$ 3,690,270
Pasqua First Nation	593,000	593,000
	\$ 4,283,270	\$ 4,283,270

23. Mack Defence, LLC - Claim settlement payment

In the prior year, the Company recognized \$1,017,411 in compensation to it's customer Mack Defence, LLC for providing non-compliant manufactured parts that did not meet paint specification.

Also in the prior year, Pro Metal Industries Ltd. management proactively identified the non-compliant parts and was voluntarily self-declared to Mack Defence, LLC. Pro Metal Industries Ltd. management was able to negotiate a reimbursement amount to Mack Defence, LLC that significantly reduced the any further potential compensation.

In the current year, the Company paid off the compensation liability in full to the Mack Defence, LLC.

Subsequently In December 2020, Pro Metal Industries Ltd. filed a legal claim against a former Director and General Manager to recover damages.

24. Personal protective equipment and mobile medical unit revenues

The Company sold personal protective equipment, mobile medical units and installation services in response to the COVID-19 pandemic. This consisted of product purchased for resale as well as products developed and manufactured by the Company. The revenue breakdown is as follows:

		2020
Purchased products and installation services	\$	8,897,191
Products developed and manufactured internally		233,221
	\$	9,130,412

25. Repayment of Western Economic Development Grant

In the prior year, the Company was unable to bring the Gasification unit into Canada which the contribution agreement with Western Economic Diversification Canada (WED) required. Due to this, the Company repaid \$209,845 of the grant back to WED on June 26, 2020.

During the current year, the Company renegotiated the contribution agreement with WED. Both parties agreed that the grant repayment would be returned to Pro Metal Industries Ltd. in the form of an amended contribution agreement for the year ending October 31, 2021.

26. Manufacturing overhead

The manufacturing overhead includes following components:

	2020	2019
Depreciation	\$ 146,048	\$ 200,458
Rent	80,707	105,954
Utilities	21,782	28,595
Shop labour	72,353	94,986
Equipment repairs	4,557	5,983
Shop supplies	77,653	93,220
Waterjet expenses	22,665	29,755
Insurance	8,943	11,741
	\$ 434,708	\$ 570,692

27. Temporary wage subsidy for employers

The Temporary Wage Subsidy (TWS) came into effect on March 18, 2020 and allows eligible employers to reduce the amount of payroll deductions they would otherwise be required to remit to the Canada Revenue Agency. The amount of the subsidy is 10% of the remuneration, to a maximum of \$1,375 per employee and a maximum of \$25,000 per employer and applies during the period March 18, 2020 to June 19, 2020.

The Company met the terms and conditions of the TWS therefore applied for the TWS and received \$23,375 in the year.

28. Canada Emergency Business Account Loan (CEBA)

The Company applied for and received the \$40,000 CEBA loan in the 2020 fiscal year. The loan was provided by the Government of Canada to provide capital to organizations to see them through the current challenges and better position them to return to providing services and creating employment. The loan is unsecured.

The loan is interest free to December 31, 2022. If the loan is paid back by December 31, 2022, \$10,000 of the loan will be forgiven. If the loan is not paid back by December 31, 2022 the full \$40,000 loan will be converted to loan repayable over three years with a 5% interest rate.

29. Economic dependence

The Company has incurred significant losses in the last two years and the accumulated deficit has increased to \$9,265,485. The Company is dependent upon the parent company, PFN Group of Companies LP and Pasqua First Nation for cash injections in order to continue to operate.

30. Subsequent events

Subsequent to year end, the impact on COVID-19 on Canadian and global economies increased significantly. The full impact this will have on the Company's customers and suppliers and the resulting effect of COVID-19 on the Company's financial position and future operations is not known at this time.

31. Capital management

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern, so that it can continue to provide returns for shareholders.

The Company sets the amount of capital in proportion to risk and manages the capital structure and makes adjustments to it in light of changes to economic conditions, growth, and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, request contributions from shareholders, or sell assets to reduce debt. There have been no changes in the monitoring of capital or strategy from the prior year.

32. Lease commitment

The Company entered into a lease for office and warehouse space (approximately 30,640 square feet) effective March 1, 2019 that runs to March 31, 2024 with an option to renew for another 5 year term. The lease rate per month is \$39,146. The tenant is responsible for all operating costs.

33. Related party disclosure

The related party entities are as follows:

PFN Group of Companies LP is the parent organization of the Company and own 100% of the Company.

Pasqua First Nation Land Acquisition Limited is related with the entity through common control through PFN Group of Companies LP.

Pasqua First Nation who is the limited partner owning 99.9% partnership units in the PFN Group of Companies LP who is the parent company of the Company. Pasqua First Nation indirectly owns the Company.

During the year, the following transactions were conducted with the related parties:

The Company provided goods and services of \$7,500 to the PFN Group of Companies LP.

The Company provided goods and services of \$2,697,657 to the Pasqua First Nation.

Key management of the Company is the President of the Company. Total compensation to the key management of the Company for the year is \$158,450

Balances between the Company and related parties are reflected in Due to related parties (Note 18)

These transactions are in the normal course of operations and are measured at their exchange amount, which is the amount of consideration established and agreed to by the related parties.
