## **Subject: Notice Regarding Settlement Per Capita Distribution Eligibility**

Dear Pasqua First Nation #79 Citizens,

Pasqua First Nation Chief and Council wish to inform citizens who have recently received their status through *“The Indian Act”*, of important information regarding eligibility for per capita distribution payments associated with past settlement agreements.

Under the terms of these settlement agreements, individuals were required to be registered members on the Pasqua First Nation Band List at the time each settlement was ratified in order to be eligible to receive per capita distribution payments. Unfortunately, citizens who became registered members after the applicable ratification dates are not eligible to receive payments from these settlements.

The applicable cut-off dates for each settlement are as follows:

- **QVIDA Flood Claim Settlement:** September 11, 2013
- **1906 Settlement Claim:** October 29, 2018
- **Agricultural Benefits Settlement:** December 13, 2024

Pasqua First Nation sincerely regrets that payments cannot and will not be issued to individuals who became registered members after these respective dates. These eligibility requirements are binding under the settlement agreements and are not subject to discretion by Chief and Council.

We acknowledge and respect the importance of your recent registration and welcome you as members of Pasqua First Nation. We appreciate your understanding regarding these settlement limitations. We encourage you all to stay informed of any updates regarding the Nation by downloading the Pasqua First Nation #79 app on your phone and checking the website [Pasqua First Nation](http://PasquaFirstNation.ca) frequently.

Sincerely,

**Pasqua First Nation #79  
Chief & Council**
