

Apprentice Electricians

Who We Are

Clean Harbors offers lodging services with the refinery and petrochemical industry. We are the premier supplier of industrial lodges and drill camps to companies in Canada's north operating facilities in Alberta, British Columbia and Saskatchewan. We are a one-stop housing provider including design, construction, transportation, set-up, service, maintenance, catering and housekeeping.

Job Summary

Clean Harbors is currently looking for Apprentice Electricians to work with our K+S Potash legacy Project in Bethune, SK. The successful candidate will be responsible for performing a variety of tasks each day and must be able to perform a full range of electrical assignments such as read and follow blue prints, material takeoff, installation of equipment and fixtures, inspect and test electrical systems, diagnose and repair malfunctioning systems, instruct and mentor lower level employees.

Key Responsibilities

- Ensure health and safety is the number one goal by following policies, processes and acting in a safe manner at all times.
- Cut, thread, bend assemble, and install conduits and other types of electrical conductor enclosures and fittings
- Assist senior electricians to isolate and correct defects in wiring, switches, motor and other electrical equipment
- Pull wire through conduits and holes in walls and floors
- Test electrical and electronic equipment and components for continuity, current, voltage, resistance, integrity and safety

Key Qualifications

- 2nd or 3rd year registered apprentice;
- 2 + years of previous modular/camp construction experience
- Safety tickets an asset (Confined Space, Fall Protection, First Aid/CPR, WHIMIS, SCOT, TDG, H2S Alive)
- High attention to detail and takes pride in workmanship

Please submit resume along with references, a copy of safety tickets and a copy of drug test to:
