                          <--  -->

SEN            X                                              INT
     11   9    7    5    3    1    1    3    5    7    9   11
                          <--  -->

VIS                        X                                  VRB
     11   9    7    5    3    1    1    3    5    7    9   11
                          <--  -->

SEQ                             X                             GLO
     11   9    7    5    3    1    1    3    5    7    9   11
                          <--  -->
```

- If your score on a scale is 1-3, you are fairly well balanced on the two dimensions of that scale.
- If your score on a scale is 5-7, you have a moderate preference for one dimension of the scale and will learn more easily in a teaching environment which favors that dimension.
- If your score on a scale is 9-11, you have a very strong preference for one dimension of the scale. You may have real difficulty learning in an environment which does not support that preference.

We suggest you print this page, so that when you look at the explanations of the different scales you will have a record of your individual preferences.

For explanations of the scales and the implications of your preferences, click on Learning Style Descriptions.
